

GSTelecom

by G999 Blockchain

Secured messaging

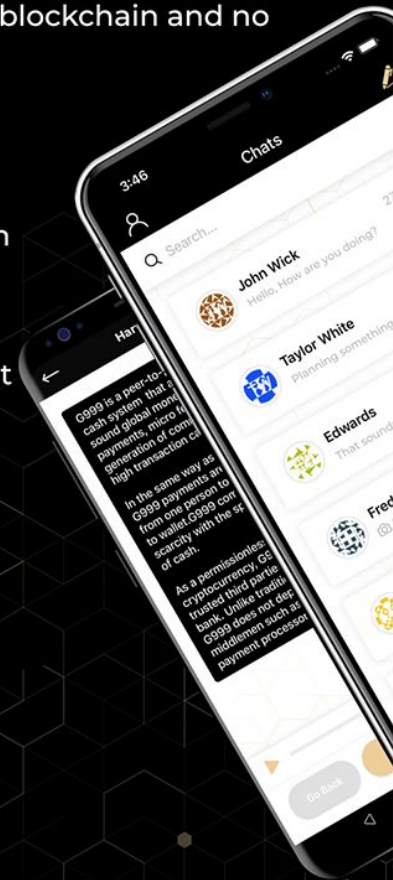

GSTelecom is a decentralized blockchain messaging technology which makes it totally immune to any hacks.

Privacy at its best

Share important chats, voices or documents without worrying of privacy. All of your communications are stored in blockchain and no one can access it except you.

Easy to use

We have developed GSTelecom as a user friendly application. You can share documents, spreadsheets, PDFs and much more in the simplest and safest way possible.

Available Now!
