

# Key Technology Partner and Provider

## SKYGROUND AND LYDIANWORLD

### PARTNERSHIP INTRODUCTION

SKYGROUND is a technology provider supporting several of the biggest online brokers globally with first class technology products.

As a technology provider, SKYGROUND supports many major online brokers worldwide with first-class technology modules, using similar trading technology, such as MT4 and MT5, also used by established traditional brokers like IG Group, Swissquote, and BDSwiss.

# Key Technology Partner and Provider

## SKYGROUND AND LYDIANWORLD

### PARTNERSHIP INTRODUCTION

With a wealth of experience in capital markets gained at companies such as Commerzbank and, as well as other international financial firms, Alexander Oelfke brings a deep BDSwiss understanding of future technologies,

"The primary objective of SKYGROUND is to consistently deliver exceptional technologies to our partners, while fulfilling our commitment to being a facilitator for success in diverse markets. SKYGROUND has invested significant resources in research and development to find a solution that will improve access to capital markets. I am proud that SKYGROUND is able to offer comprehensive solutions to all partners, from mobile banking, trading, to digital asset management and support - in short, a one-stop-shop." – Alexander Oelfke
